

NATIONAL CONFERENCE 2022

Formazione Permanente e Aggiornamento Professionale APID®

MODENA 26-27 MARZO 2022

ABATE ROAD 66 Soc.Coop. Via Nicolò dell'Abate 66

Another World is Necessary

La Danza Movimento Terapia e le sfide del futuro

This is the theme of the conference organised by the Italian Professional Association Dance Movement Therapy (APID®).

Every day we witness the lack of respect for the Laws of Nature and the Earth, where, unfortunately, we live in an emergency, not only climatic and health-related but global, linked to all areas of an increasingly isolated and confused 'human': the social, relational, psychological,

What can be the contribution of professionals from a discipline that has always been close to human needs encompassing the various aspects of care from childhood to old age and individually as inhabitants of the same Planet?

The need and urgency of Another World imposes questions on us.

How are we doing in this complex historical period? What proposals, what legacy do we offer the new generations?

What perspectives?

What dances?

What cures for body and soul?

We have invited experts who will present, through lectures and specific interventions, themes concerning new evolutionary perspectives through the anthropological and mythical/symbolic vision.

Some distinguished speakers

Mauro Van Aken, Professor of Anthropology at the University of Milan Bicocca, author of numerous texts (including the latest extraordinary *Campati per aria*) that challenge our own cultural roots, conditioned by the carbon civilisation. Do we lack the Earth? Or is it rather Heaven that no longer meets our eyes? Here is the title of his intriguing talk: **"Steps generative in the Anthropocene: decarbonising the cultural imagination"**.

Laura Ghianda, independent researcher on the theme of the Great Mother. Her fascinating proposal and contribution: **"Ancestors and Ancestors of the future - beyond oppositional dualism"**.

Other important guests also streaming

Shirley Mawer, representative of **the Association's Global Affiliation** study group **European (EADMT)**.

Highly anticipated intervention in the presence of:

Johan Dhaese, choreographer, dancer and dance therapist, who will also offer **movement experiences for all participants**.

It will be the practice, with creativity combined with scientific discipline, typical of DMT, that will provide further suggestions to the Conference to undertake, all together, the necessary and desired transformation.

Workshops, Poster presentations, performances

These activities will engage not only professionals, many of them will be aimed at interested people, to discover the infinite resources that have made it possible, even in a pandemic, to stay close to people.

DanceMovementTherapists ask only to share them!

The conference was formulated to be a moment of **permanent training** for APID® members but also **of exchange and openness to the community**.

ACCESS TO THE VENUE AND PARTICIPATION IN THE CONFERENCE ARE SUBJECT TO THE FOLLOWING CONDITIONS
COMPLIANCE WITH EXISTING 19 ANTI-COVID LEGISLATION.
